SHUBHAM VISHWAKARMA

Phone: +91 9301479635 | Email: devshubhamvsv@gmail.com | Bangalore, Karnataka, IN
GitHub: https://github.com/shubhamvdev | LinkedIn: https://www.linkedin.com/in/devshubhamvsv

Technical Skills

Programming Languages:	JavaScript (ES6+), TypeScript
Frontend Technologies:	React.js, Next.js, HTML5, CSS3, Redux
UI Libraries & Frameworks:	Ant Design, Cloudscape Design System, Chakra UI, Material UI, Bootstrap
Version Control % Collaboration:	Git, GitHub, AWS CodeCommit
Development Tools:	VS Code, NPM, Yarn
Cloud & Deployment:	AWS (Amazon S3), Shell Scripting, Application Deployment

Work Experience

Software Developer | Aarggv Tech — Feb 2025 – Present | Delhi

- Developed scalable SaaS and real-time applications with React.js, Next.js, TypeScript, and Redux, improving performance by **30%**.
- Delivered CRM, HRM, Sales, Inventory, and Laboratory Management modules, increasing operational efficiency by **40%**.
- Implemented real-time synchronization and integrated APIs, Razorpay, and authentication systems, achieving **99.9%** reliability.
- Built reusable components and automated reporting dashboards, reducing development time by **25%** and reporting efforts by **60%**.

Junior Full Stack Developer | NewTechFusion CyberTech Pvt Ltd — Feb 2023 – Jan 2025 | Indore

- Developed scalable web applications using React.js, Next.js, TypeScript, and Redux, improving performance by **30%**.
- Built reusable components and integrated REST APIs, reducing development effort by **25%** and ensuring **99.9%** reliability.
- Created dashboards and visualizations, reducing reporting efforts by **60%**.
- Implemented real-time features with Socket.IO, improving data synchronization by **90%**.
- Optimized application performance and UX, enhancing responsiveness by **35%**.

Software Developer | ZecData Technologies — Jul 2022 – Dec 2022 | Indore

- Developed responsive web applications using React.js and Next.js, improving application performance and page load speed by **30%**.
- Built reusable UI components and integrated REST APIs, reducing development effort by **25%**.
- Optimized state management and frontend performance, enhancing application scalability and responsiveness by **35%**.

Projects

Medicity | React.js, TypeScript, Redux, Bootstrap, Firebase | **Live URL**

- Built a real-time Laboratory Management System, improving workflow efficiency by **40%**.
- Developed sample collection and lab tracking modules, reducing manual efforts by **50%**.
- Enabled real-time updates with Firebase, improving data synchronization by **90%**.

10xdeals | React.js, Vite, Redux, Material UI, React Query, Chart.js, Firebase, Razorpay | **Live URL**

- Contributed to SaaS platform, improving operational efficiency by **40%**.
- Built scalable frontend modules and integrated APIs, reducing development effort by **25%**.
- Implemented subscription workflows and Razorpay payments, achieving **99.9%** transaction reliability.

Labh Path Labs | React.js, Redux, Bootstrap, Firebase | **Live URL**

- Developed a diagnostic management platform, improving workflow efficiency by **40%**.
- Built patient onboarding and test tracking modules, reducing manual processes by **50%**.
- Created operational dashboards and multi-branch management features, enhancing monitoring efficiency by **35%**.

Bedater | Next.js, TypeScript

- Developed a real-time debate platform, improving user engagement by **35%**.
- Implemented live chat and notifications with Socket.io, enhancing real-time interactions by **90%**.
- Built authentication and session management features, improving platform reliability by **99.9%**.

ReadyDoc | React.js, TypeScript, Redux, Ant Design

- Built a healthcare platform, improving workflow efficiency by **40%**.
- Integrated APIs for task management and medical documentation, reducing manual effort by **30%**.
- Optimized UI performance and responsiveness, enhancing user experience by **35%**.

Propertelligent | React.js, TypeScript, Redux, Material UI, Socket.io

- Developed tenant management features, improving operational efficiency by **40%**.
- Implemented automated notifications and alerts, reducing manual communication efforts by **30%**.
- Added real-time updates with Socket.io, enhancing user interactions and data synchronization by **90%**.

Education

M.C.A. (Computer Application)	RGPV, Bhopal (Distance Learning)	**8.2 CGPA**	2023-2025
B.C.A. (Computer Science)	Vikram University, Ujjain	**67.50%**	2020-2023
Higher Secondary School	MPBSE, Bhopal	**65.00%**	2019-2020
High School	MPBSE, Bhopal	**77.00%**	2017-2018
